

OUR DRIVEN SYSTEM RESULTS IN BETTER FENCE

NO DIGGING OR CONCRETE

Less damage to yard, no heavy equipment and no mess

REDUCED FROST HEAVE

Driven posts are smooth and have no footing for the frost to "grab"

REDUCED POST SINKING

No over-dug holes or heavy footings to settle

THE END RESULT

Your fence stays straighter longer!

NO FROST HEAVE

Driven posts go deeper than footings and are smooth so there is nothing for the frost to "grab".

Lovewell installs Master Halco Spectra® Chainlink

Spectra® is the latest generation of Master Halco's residential, commercial and industrial chain link fence systems. It provides the corrosion protection of zinc, with the durability and attractive appearance of a colored polyester framework and extruded PVC fabric, to ensure years of attractive and reliable performance that blends in beautifully with the environment.

FEATURES AND BENEFITS

Zinc-coated steel framework is thoroughly cleaned during the pre-treatment process, then color coated with a 3 mil minimum polyester layer for protection from corrosion.

All galvanized wire has a 15 mil minimum extruded polyvinyl chloride coating for dual protection from corrosion and the elements.

Fittings are made of galvanized steel with a 3 mil minimum of polymer layer for protection from corrosion.

POSTS

TOP RAIL - 1 3/8" O.D. Spectra® 16 Gauge

LINE POSTS - 1 5/8" O.D. Spectra® 16 Gauge

TERMINAL & GATE POSTS - 2 3/8" O.D. Spectra® 16 Gauge

GATES

FRAME - Fully welded gate frames provide enhanced durability

FABRIC - Same Gauge and Mesh as Chain Link Selected
